Sacramento, CA 94296-0001

PROJECT TITLE: Replace Potable Water System at Anderson Marsh State Historic Park

LOCATION: Anderson Marsh State Historic Park

COUNTY: Lake

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT:

Replace an antiquated, high-maintenance, well-supplied water system with connection to the local water company at Anderson Marsh State Historic Park to provide a consistent, potable water supply. Work will tap an existing 6" water line under Anderson Marsh Parkway road; install approximately 60' of 2" poly water service line 24-30" deep; install a meter box and fittings for $\frac{3}{4}$ " water meter 18-24" deep; install a pressure-reducing valve box; install above-ground double-check valve assembly and freeze blanket; install and backfill approximately 710' of 2" poly water service line with 24" minimum native soil cover on road shoulder; and backfill 140' of trench with grey base rock across dirt parking lot. The impact to native soils along the road shoulder is minimal due to a raised roadway. All ground disturbing work will be monitored by a DPR-qualified cultural resource specialist. If potentially significant resources are unearthed, work in the immediate area will be temporarily halted or diverted until further identification and proper treatment are determined and implemented.

PUBLIC AGENCY APPROVING THE PROJECT: California Department of Parks and Recreation

NAME OF DIVISION OR DISTRICT CARRYING OUT THE PROJECT: Northern Buttes District

EXEMPT STATUS:

☒ Categorical Exemption: Replacement or Reconstruction – Class 2 and Minor Alteration To Land - Class: 4; Section(s): 15302, 15304

REASONS WHY PROJECT IS EXEMPT:

Project consists of the replacement of existing facilities (utility system) where the new structure will be located on the same site as the structure replaced and have substantially the same purpose and capacity and the minor alteration (trenching and backfilling) in the condition of land which does not involve the removal of mature, scenic trees
